SUMMARY

UX/UI Designer with 4+ years of experience across FinTech, eCommerce, SaaS, and enterprise platforms. Experienced in Product Design and User Experience (UX) Design, including lending flows, multi-sided marketplaces, dashboards, and operational systems. Strong focus on simplifying complex workflows, improving usability, driving user adoption, and building scalable, user-centric solutions in collaboration with Product, Engineering, Risk, Compliance, and Business teams.

EXPERIENCE

KrazyBee Services Pvt. Ltd.

UX/UI Designer | Oct 2024 – Present

- Led product design strategy across lending, investments, insurance, and operational platforms, contributing to a portfolio scale of 350 Cr+ AUM
 - Defined UX architecture for secured lending products, including Loan Against Property, scaling to 125 Cr+ AUM within one year
 - Designed and launched Two-Wheeler Loans as a 0→1 product, owning problem definition, onboarding, and disbursal flows
 - Delivered multiple 0→1 launches including Healthcare Plans and Digital Gold SIPs, driving 30,000+ monthly plan sales
 - Designed an alternate ticket management system for customer support, improving CS team efficiency by 25%+
 - Improved IVR and chatbot flows, enhancing operational efficiency at scale
 - Drove monetisation through contextual bundling of Insurance and Credit Reports, contributing to 22% revenue growth
 - Built and governed design systems and shared component libraries, reducing training time by 50% and errors by 75%
 - Worked closely with Product, Engineering, Business, Risk, and Compliance teams to ensure all user experiences aligned with regulatory requirements and financial guidelines
-

Webkul

UX/UI Designer | May 2022 – Sep 2024

- Designed user experiences for multiple eCommerce marketplace modules and extensions across platforms including Magento, Shopify, Bagisto (Laravel-based), Odoo, Salesforce Commerce, and WooCommerce
 - Led UX design for custom-built extensions developed from scratch based on client requirements, solving specific business challenges across marketplace operations
 - Improved core marketplace workflows such as product discovery, checkout, cart management, order tracking, and vendor management, improving usability and reducing friction
 - Designed solutions for Multi-Vendor Marketplace systems, POS integrations, ERP connectors, and CRM workflows, enabling businesses to manage operations across digital commerce ecosystems
 - Simplified complex business processes by aligning frontend user journeys with backend operational workflows across platforms
 - Created reusable UX patterns adaptable across different client implementations and platform architectures
 - Collaborated with product managers, developers, and business stakeholders to deliver intuitive and consistent user experiences
 - Built end-to-end Food and Gym product ecosystems using AI-assisted coding workflows (ChatGPT, Claude, Google AI Studio), covering user flows, dashboards, and core operational features
-

Wallicon Pvt. Ltd. (Startup)

Visual UI Designer | May 2021 – Apr 2022

- Contributed to the 0→1 launch of a multi-sided digital commerce platform enabling dealers to sell Wallicon products through their own storefronts
- Designed a centralized ecosystem connecting customers, dealers, and internal teams, enabling product discovery, order management, and end-to-end fulfillment
- Built a dealer onboarding platform allowing businesses to register, create their own websites, and start selling online, onboarding 10,000+ dealers across India
- Designed dealer dashboards to manage orders, sales, and customer interactions, enabling independent dealer operations
- Defined the order lifecycle where customer orders placed via dealer storefronts were routed to dealer dashboards and fulfilled centrally by Wallicon
- Solved the key challenge of transitioning dealers from offline processes (calls and WhatsApp) to a structured digital platform through intuitive workflows
- Designed a super admin system to manage dealer onboarding, operations, inventory, warehouse workflows, marketing, customer support, and delivery systems
- Drove platform adoption, with 60% of operations managed through the system within 3 months of launch

- Reduced manual operational effort by approximately 80% by replacing fragmented offline processes with a centralized system
-

ITLH LLP

UX/UI Designer | Nov 2020 – Mar 2021

- Designed and delivered the in-house website experience across web and mobile, establishing clear user flows and navigation
 - Translated business requirements into wireframes, prototypes, and high-fidelity UI
 - Delivered MVP under tight timelines, prioritizing core user journeys
 - Collaborated closely with developers to ensure accurate implementation
 - Created UI components and visual assets supporting the overall product experience
-

SKILLS

Product & UX Design

End-to-End Product Design, User-Centric Design, UX Strategy, Problem Framing & Discovery, Interaction Design, Information Architecture, User Journey Mapping, Scalable UX Architecture, Accessibility-First Design

Research & Validation

User Research, Usability Testing, Flow Diagrams, Experimentation & UX Metrics

Design Execution

Wireframing, Prototyping, Design Systems, Cross-Platform Design, Mobile and Web Design, Visual Design, Component-Based Design

Collaboration & Tools

Stakeholder Collaboration, Figma, Adobe XD, Photoshop, Illustrator, Zeplin, Jira, Overflow, Autodesk Maya, Blender

AI & Tools

AI-Assisted UX Design, Prompt Engineering for Design & Research, AI-Driven Ideation, AI-Assisted Prototyping, AI-Assisted Research Synthesis, AI-Assisted Coding (Vibe Coding), Developed End-to-End Product Ecosystems (Food & Gym) using AI, ChatGPT, Claude, Google AI Studio, Midjourney, Figma Make, Google Stitch

EDUCATION

BBA – Integral University

UI/UX Certification (Topper) – ITLH LLP

Diploma in 3D Animation & Film Making – Picasso Animation College
